

**Amateur Yacht Research Society** Publications 1 to 30 as searchable pdf's

These have been scanned from personal copies, some are originals, some reprints, some second hand, some shop soiled and others photocopies so the results are not perfect but I hope you enjoy them.

Page numbers usually start from the front cover but the bigger volumes often start from the frontispiece page; in which case the Adobe page count will be 2 out.

TITLES are:-

- |                          |                             |
